

Working Papers

(The control points of the template system.)

A complete set of the working papers taken from the *Security Officers Instruction Guide*. This is to be used by the implementer(s) of this ISS program package.

December 31, 2001

You can complete these working papers on line or you can print them out and fill in the blanks manually. Online use assumes an intermediate level of skill with Microsoft Word. Print quality and layout may vary by printer.

Working Papers Overview

Working Paper #1: Assemble a Security TEAM	1
Working Paper #2a: Business Impact Analysis Ranges and Scales	4
Working Paper #2b: Business Impact Analysis — Platform Table	5
Working Paper #2b: Business Impact Analysis — Applications Table	6
Working Paper #2b: Business Impact Analysis — General Software Table	7
Working Paper #2b: Business Impact Analysis — Hardware Table	8
Working Paper #2b: Business Impact Analysis — Communications Table	9
Working Paper #2c: Threats/Risks Types Table	10
Working Paper #2d: Safeguards Table.....	11
Working Paper #3a: Publishing Rules/Parameters — Computer User.....	12
Working Paper #3b: Publishing Rules/Parameters — IS Technical Staff	26
Working Paper #4: Incident Reporting At-a-Glance Handout	39
Working Paper #5: Awareness Program.....	40

Working Paper #1: Assemble a Security TEAM

ISS Tasks	Agency/ Department (if different)	Division/Unit Responsible	Person(s) Responsible	Position	Member of SAC? (Y/N)	Member of IRT? (Y/N)
Rule Tasks						
Recommend, develop, and implement security Rules - the Rule Maker (use template).			John Doe	Network admin	N	Y
Enforce and monitor compliance to security Rules.						
Periodically evaluate effectiveness of ISS Rules and procedures.						
System Tasks						
Act as liaison between security department and IS.						
Coordinate followup procedures for ensuring proper adjustment of access privileges associated with changes in employee status and business arrangements.						
Review changes to the configuration of security administration facilities and settings.						
Participate in preparing a disaster recovery plan to help prepare for contingencies and be ready to implement the disaster recovery plan.						
Implement procedures for authentication of users and messages.						
Publish guidelines for creating and managing passwords.						
Approve/disapprove access by users to systems/set up access - passwords.						
Cooperate in the development and implementation of security technology.						
Perform security assurance reviews for new systems and changes to existing systems.						

ISS Tasks	Agency/ Department (if different)	Division/Unit Responsible	Person(s) Responsible	Position	Member of SAC? (Y/N)	Member of IRT? (Y/N)
Maintain up-to-date records for all systems accessed by employees and users.						
Maintain configuration profiles of all systems controlled by IS including but not limited to mainframes, distributed systems, microcomputers, and dial access ports.						
Identify security technical resources and tools.						
Document the security support structure across platforms.						
Participate in reviews and analysis of internal projects that may have impact on ISS.						
Security Tasks						
Gather facts and analyze information security issues/ keep current.						
Develop recommendations for IMServices on ISS matters.						
Investigate, coordinate, report, and follow up on security incidents.						
Coordinate prosecution of offenders.						
Assign an owner to each asset.						
Provide interface with internal and external audit agencies.						
Conduct business impact analysis - risk assessments to identify threats and potential safeguards.						
Assemble a security team.						
Monitor unusual activities and report security breaches and incidents, including identifying resources to assist with tracking, analysis, and responding to incidents.						
Establish and chair agency security committees.						

ISS Tasks	Agency/ Department (if different)	Division/Unit Responsible	Person(s) Responsible	Position	Member of SAC? (Y/N)	Member of IRT? (Y/N)
Report risks and incidents to agency head - all areas.						
Furnish security awareness, training, and advisory programs for employees.						
Establish and maintain security teams with roles and responsibilities.						
Identify training requirements.						
Develop and implement strategies to make users aware of security Rules, procedures, and benefits.						
Coordinate technical leads and public relations.						
Establish secure communication channels.						
Conduct regular training and readiness drills.						
Monitor, audit, and test systems for security vulnerabilities.						

Working Paper #2a: Business Impact Analysis Ranges and Scales

Scale	Storage / Size/ Space Capacity Range
25	Example: 50 gig and >
20	20 - 50 gig
10	10 - 20 gig
5	1 - 10 gig
1	less than 1 gig

Scale	# Users - usage and sharing Range
25	Example: 5000 and >
20	1000 - 4999
10	300 - 999?
5	50 - 299
1	less than 50

Scale	Classification Level
25	Highly Restricted
20	Confidential
10	Internal Use Only
1	Unclassified/ Public

Scale	Integrity Range
25	\$100,000,000 and >
20	\$10,000,000 - 100,000,000
15	\$1,000,000 - 10,000,000
12	\$500,000 - 1,000,000
10	\$100,000 - 500,000
5	\$10,000 - 100,000
4	\$1,000 - 10,000
3	\$100 - 1,000
2	\$1 - 100
1	< \$1

Scale	Unavailability Range
25	\$100,000,000 and >
20	\$10,000,000 - 100,000,000
15	\$1,000,000 - 10,000,000
12	\$500,000 - 1,000,000
10	\$100,000 - 500,000
5	\$10,000 - 100,000
4	\$1,000 - 10,000
3	\$100 - 1,000
2	\$1 - 100
1	< \$1

Scale	Disclosure Impact
25	Stock prices impacted
20	Adverse national press
10	Public made aware through local coverage
5	Disclosure spread throughout your organization
2	Disclosure spread to another work area in your organization
1	Disclosure restricted to within the project or work area

Scale	Cost to Replace Range
25	\$100,000,000 and >
20	\$10,000,000 - 100,000,000
15	\$1,000,000 - 10,000,000
12	\$500,000 - 1,000,000
10	\$100,000 - 500,000
5	\$10,000 - 100,000
4	\$1,000 - 10,000
3	\$100 - 1,000
2	\$1 - 100
1	< \$1

Working Paper #2b: Business Impact Analysis — Platform Table

ISS Asset: Platform (option: list all categories)	Location (physical or logical platform/location)	Inventory Number (number)	Affected by HIPAA? (y/n)	IM Services Supported/Owned? (y/n) (If y, do not continue)	Storage space/size (use scale)	#Users: usage and sharing (use scale)	Owner (name)	Classification (use scale)	Loss Impact			Value (Storage + Users + Class + Loss Impact)
									Integrity (use scale)	Unavailability (use scale)	Disclosure (use scale)	

ISS Asset: Platform (option: list all categories)	Threat (list all)	Threat Likelihood (use scale)	Threat Impact (use scale)	Risk Factor (Value + Threat Likelihood + Threat Impact)	Current Safeguard(s) (list)	Proposed Safeguards		
						(list)	New Risk Factor (Value + Threat Likelihood + Threat Impact)	Costs (\$)

Working Paper #2b: Business Impact Analysis — Applications Table

ISS Asset: Applications (software and databases)	Location (physical or logical platform/ location)	Inventory Number (number)	Affected by HIPAA? (y/n)	IMServices Supported/ Owned? (y/n) (If y, do not continue)	Storage space/ size (use scale)	#Users - usage and sharing (use scale)	Owner (name)	Classifi- cation (use scale)	Loss Impact			Value (Storage + Users + Class + Loss Impact)
									Integrity (use scale)	Unavail- ability (use scale)	Disclosure (use scale)	

ISS Asset: Applications (software and databases)	Threat (list all)	Threat Likeli- hood (use scale)	Threat Impact (use scale)	Risk Factor (Value + Threat Likelihood + Threat Impact)	Current Safeguard(s) (list)	Proposed Safeguards		
						(list)	New Risk Factor (Value + Threat Likelihood + Threat Impact)	Costs (\$)

Working Paper #2b: Business Impact Analysis — General Software Table

ISS Asset: General Software	Location (physical or logical platform/ location)	Inventory Number (number)	Affected by HIPAA? (y/n)	IMServices Supported/ Owned? (y/n) (If y, do not continue)	Storage space/ size (use scale)	#Users - usage and sharing (use scale)	Owner (name)	Classifi- cation (use scale)	Loss Impact			Value (Storage + Users + Class + Loss Impact)
									Integrity (use scale)	Unavail- ability (use scale)	Disclosure (use scale)	
Operating Systems												
Utilities												
Compilers												

ISS Asset: General Software	Threat (list all)	Threat Likeli- hood (use scale)	Threat Impact (use scale)	Risk Factor (Value + Threat Likelihood + Threat Impact)	Current Safeguard(s) (list)	Proposed Safeguards		
						(list)	New Risk Factor (Value + Threat Likelihood + Threat Impact)	Costs (\$)
Operating Systems								
Utilities								
Compilers								

Working Paper #2b: Business Impact Analysis — Hardware Table

ISS Asset: Hardware	Location (physical or logical location)	Inventory Number (number)	Affected by HIPAA? (y/n)	IM Services Supported/ Owned? (y/n) (If y, do not continue)	Storage space/ size (use scale)	#Users - usage and sharing (use scale)	Loss Impact		Value (Storage + Users + Loss Impact)
							\$ to Replace (use scale)	Unavailability (use scale)	
Processors									
Tape Drives									
Printers									
DASD									
UPS									

ISS Asset: Hardware	Threat (list all)	Threat Likelihood (use scale)	Threat Impact (use scale)	Risk Factor (Value + Threat Likelihood + Threat Impact)	Current Safeguard(s) (list)	Proposed Safeguards		
						(list)	New Risk Factor (Value + Threat Likelihood + Threat Impact)	Costs (\$)
Processors								
Tape Drives								
Printers								
DASD								
UPS								

Working Paper #2b: Business Impact Analysis — Communications Table

ISS Asset: Communications	Location (physical or logical location)	Inventory Number (number)	Affected by HIPAA? (y/n)	IMServices Supported/ Owned? (y/n) (If y, do not continue)	Loss Impact		Value (Storage + Users + Loss Impact)
					\$ to Replace (use scale)	Unavailability (use scale)	
Access points/ configuration points							
Modems							
Routers (list quantity by model)							
Networks							
Switches							

ISS Asset: Communications	Threat (list all)	Threat Likeli- hood (use scale)	Threat Impact (use scale)	Risk Factor (Value + Threat Likelihood + Threat Impact)	Current Safeguard(s) (list)	Proposed Safeguards		
						(list)	New Risk Factor (Value + Threat Likelihood + Threat Impact)	Costs (\$)
Access points/ configuration points								
Modems								
Routers (list quantity by model)								
Networks								
Switches								

Working Paper #2c: Threats/Risks Types Table

Threat/ Risk Types
Hackers
Social Engineering
Competitors
Insiders - authorized
Insiders - unauthorized
Former Employees
Script Kiddies
Cybercrime
Techno-crime
Virus, worm
Trojan Horse
Time bombs, stealth bombs, logic bombs
Stealing information
Disclosure
Defacement/ destroy and ruin
Change environment
Denial of Service attack
Human error
System failures
Natural Disasters
Others ??

Scale	Threat Likelihood
25	Once a day or more
20	Several times a week
10	Several times a month
5	Several time a year
1	Never

OR

Scale	Threat Likelihood
25	High likelihood
10	Moderate likelihood
1	Low likelihood

Scale	Threat Impact
25	High impact. The effect is catastrophic, the company will not survive. The project will fail.
20	Medium to high impact. Significant loss to business operations or customer confidence or market share. Customers may be lost. The effect is disastrous, but the organization can survive, at a significant loss.
10	Medium impact. Business operations are unavailable for a certain amount of time, revenue is lost, customer confidence is affected minimally (unlikely to lose customer).
5	Low to medium impact. Effect is minor, major business operations would not be affected.
1	Low impact. Impact is negligible.

 Acceptable Risk Rating

Working Paper #2d: Safeguards Table

Safeguard Types	What it Protects	Rating
Firewalls.		
VPNs?		
Incident monitors.		
Install all patches.		
Intrusion detection systems.		
Policies/rules/procedures.		
Awareness/training.		
Logs - daily monitoring.		
Physical access means.		
Encryption.		
Mechanisms - password generator, token-based, biometrics.		
Software that will trace the source of attacks.		
Block all .exe files coming in from the outside.		
Backup and recovery.		
Redundant storage of asset.		
Others?		

Working Paper #3a: Publishing Rules/Parameters — Computer User

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
Logging On Rules (See Chapter 3)					
 Unique User ID and Password					
 Unsuccessful Logging On					
Warning Banner Rules (See Chapter 3)					
 Display a Warning Banner					
 Warning Banner Keystroke Monitoring					
 Warning Banner Last Log on					
Logging Off Rules (See Chapter 3)					
 Automatic Log Off					
 Leaving Your Workstation - Logging Off / Locking					
Identification (User ID) Rules (See Chapter 3)					
 Unique User ID					
 Prohibit Group User IDs					
 Sharing your User ID is Prohibited					
 Using Another User ID is Prohibited					
 Dormant User IDs					
 Internet User ID Expiration					

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
Authentication (Password) Rules (See Chapter 3)					
 Changing Your Default Password					
 Difficult to Guess Passwords					
 Minimum/ maximum Password Length					
 Cyclical Previous Passwords					
 Password Allowable Characters					
 Passwords Lower and Upper Case					
 Choosing Your Password					
 Keeping Your Password Confidential					
 Reusing Passwords / History					
 Display and Printing Passwords					
 Forced Expiration of Passwords					
 Unsuccessful Passwords Attempts					
 Same Password on Different Systems					
 Disclosure Forces Password Change					
 Writing Passwords Down					
 Written Passwords Left Near Devices					
 Proof Of Identify to Obtain a Password					

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
Authorization (Privileges) Rules (See Chapter 3)					
 Authorized Privileges					
Network Access Rules (See Chapter 4)					
 Approval for Connections					
 Gaining Unauthorized Access					
 Network Browsing Prohibited					
 Network Backups					
 Overwhelming the Network					
 Malicious Intent and the Network					
Modem Rules (See Chapter 4)					
 Modems Connections to Internal Networks Prohibited					
 Prohibit Modems in AutoAnswer Mode					
Remote Access Rules (See Chapter 4)					
 Dial-up Password Attempts					
 Remote Access Training					
Remote Sites Rules (See Chapter 4)					
 Telecommuting Permissible Equipment					
 Protection of Off-Site Property					
 Information to be Returned					
 Remote Working Environment					

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
 Right to Conduct Inspections of Telecommute Office					
 Sensitive Information on Portable Computers					
 Backing up Portables Computers					
 Transportable Computers Hand Luggage on Airplanes					
 Portable Computer Security					
E-mail Rules (See Chapter 5)					
 E-mail for Business Purposes Only					
 E-mail and Confidential Information					
 Forwarding E-mail					
 Forwarding External E-mails					
 Forwarding E-mail to Archival Records					
 E-mail Retention					
 E-mail Virus Protection Software					
 Certainty of E-mail File Attachments Origin					
 Using another Users E-mail Account					
 Using E-mail as a Database					
 Deleting and Destroying E-mail					
 Privacy and E-mail					
 E-mail is Public Communication					

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
 E-mail as a Public Record (government)					
 E-mail Profanity					
 Responding to Junk (SPAM) E-mail					
 Ownership of E-mail Messages and Attachments					
 Disclosure of E-mail Messages and Attachments					
 Authorization to Issue Broadcasts in E-mail					
 Scanned Signatures in E-mail					
 Misrepresentation of Identity in E-mail					
Internet Rules (See Chapter 5)					
 Downloading Internet Files / Anti-Virus					
 Sending Sensitive Information Over the Internet					
 Uploading via the Internet					
 Using the Internet for Personal Use					
 Approval for Internet Connections					
 Training for Internet Use					
 Internet User ID Expiration					
 Personal Messages Disclaimer on Internet					
 Internet Products and Services					

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
 Public Area of Your Organization's Web Site					
 Unofficial Web Pages on the Internet					
 Concealing your Identity on Internet is Prohibited					
 Exchanges of Information on the Internet					
 Updating Organization Information on the Internet					
E-commerce Rules (See Chapter 5)					
 E-transactions					
 Forming E-contracts					
 Validating Identity of External Parties on Internet					
 Electronic Offers					
 Internet Customers					
Workstation Rules (See Chapter 6)					
 Workstation Protection Security					
 Securing Unattended Workstations					
 Loading Personal Screen Savers					
 Altering Computer Equipment					
 Moving and Relocating Your Equipment					
 Sensitive Information While Working					
 Locking File Cabinets					

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
📖 Screen Positioning					
📖 Clear Desk					
📖 Clear Screen					
📖 Office (with a door)					
📖 Cubicle Security					
📖 Bringing your personal PC/ laptop to Work					
📖 Personal Equipment and Information Ownership					
📖 Personal Equipment and Privacy					
📖 Home Computers Security					
Disposal Rules (See Chapter 6)					
📖 Information Disposal/ Wiping					
📖 Discarding Hardcopy Information					
📖 Personal Equipment Disposal					
📖 Media Disposal/ Concealment					
📖 Erase and Zeroize					
📖 Destruction Approval					
Media Security Rules (See Chapter 6)					
📖 Media Safety					
📖 Hard Drive Security					
📖 Sensitive and Non-sensitive on Same Media					

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
Physical / People Security Rules (See Chapter 7)					
 Tailgating and Piggybacking when Entering					
 Lending Cards/ Keys, Tokens					
 Challenging Strangers					
 Handling Visitors					
 Visitor Escorts					
 Visitors Entrances					
 Social Engineering					
 Sensitive Information and Physical Access Controls					
 Lock Office Doors					
 Wearing ID Badges					
 Temporary ID Badges					
 Reporting Stolen/ lost Access Badges/ Cards/ Tokens					
 Presenting Your Badge					
 Propping Open Doors					
 Stay away from Restricted Areas					
 Property Pass for Removing Equipment					
Copyright Rules (See Chapter 8)					
 Copyright Laws for Software and Paper					
 Copyrighted Inquiries					

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
📖 Copying Copyright Materials					
📖 Protection of Software and Copyrighted Materials					
📖 Copyright Enforcement Statement					
📖 Making Excess Copies Prohibited					
📖 Copying Vendor Software					
📖 Sending Copyrighted Information Electronically					
📖 Violation of Copyright Laws					
📖 Using Copyrighted Information from the Internet					
📖 Ownership of Copyrighted Materials					
Acceptable Use (of systems) Rules (See Chapter 9)					
📖 Personal Use of your Computer					
📖 Other Business Activities					
📖 Using State-Owned Resources Unrelated to Business					
📖 Using State Resources in an Acceptable Way					
📖 Transmitting State-Owned Resources in an Acceptable Way					
📖 Misrepresentation on State-Owned Resources					
📖 Using Others Users Data on the State-Owned Resources					
📖 Preventing Services to Others					
📖 Storing Games on your Computer					

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
 Giving Information to a Third Party					
 Handling Third Party Confidential Information					
 Third Party Agreements and Approvals					
 Sensitive Disclosure Statement to Third Party					
 Exposure of Sensitive information Public Places					
 Time Sensitive Information					
Other Employees/ Organization Rules (See Chapter 9)					
 Disclosing Co-worker(s) Contact Information					
 Disclosing Co-worker(s) Change in Status Information					
 Personal Identifiers Prohibited					
 Disclosing Organization Information					
 Disclosing Organization Secured Areas					
 Disclosing Organization Future Plans Prohibited					
 Organization Meetings and Sensitive information					
 Sensitive Information and Meeting Rooms					
 Organization's Documentation					
Public Records/ Privacy (of citizens) Rules (See Chapter 9)					
 Privacy of Citizens					

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
 Privacy and E-mail					
 Violating Others Privacy					
 Public Records					
 Personal Identification Information (PII)					
 Consent to Disclose Information to Law Enforcement					
 Collecting Private Information					
 Children's Privacy					
 Customers Privacy					
 Customers Disclosure to Third Party					
 Explanation for Private Information					
 Disclosure Notification / Blocking Privacy Request					
 Public Records Source Owner					
 Materials Released to the Public					
Paper Information Rules (See Chapter 9)					
 Copying Sensitive Information					
 Copying Sensitive Information and Special Paper					
 Copier / Printer Malfunction					
 Attending to Printers					
 Sensitive Information - Page Numbering					

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
Third Party Copying Sensitive Information					
Mailing Envelopes for Sensitive Information					
Tracking Mailed Sensitive Information					
Delivering Sensitive Information					
Filing Sensitive Information					
Destroying Unwanted Hard Copies					
Using Software and Data Rules (See Chapter 9)					
Malicious Intent is Prohibited					
Downloading Software					
Protecting Software / Handling a Virus					
Copying Software					
Purchasing and Installing New / Upgraded Software					
Retaining Data					
Input Data Retention					
Using File and Directory Rules (See Chapter 9)					
Others User Directories and Files					
Unauthorized Access Prohibited					
Receiving Files on Disks / CDs					
Setting up a New Directory					
Amending Directory Structures					

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
📖 Using Meaningful Directory and File Names					
Telephone, Faxes and Other Devices Rules (See Chapter 9)					
📖 Telephone Disclosures					
📖 Cellular Telephones					
📖 Answering Machines					
📖 Organization Credit Cards on Pay Phones					
📖 Organization Telephone Book Security					
📖 Consent to Record					
📖 Faxing Sensitive Information					
📖 Fax Cover Sheet					
📖 Taping Sensitive Information					
📖 Video Conferencing					
📖 Other Devices - Transmissions					
HR Related Rules (See Chapter 9)					
📖 Personnel Records (privacy) and the Employee					
📖 Using Employee Information					
📖 Returning Organization Property					
📖 Help Wanted Ads and Disclosure					
📖 Gathering Prospective Employee Information					
📖 Employee Monitoring Notification					

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
 Employee Job Performance Privacy					
 Benefits Cannot be Denied					
 Employee Health and Safety Disclosure					

Working Paper #3b: Publishing Rules/Parameters — IS Technical Staff

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
Technical Specialists Rules					
 Access by Technical Specialists					
 Technical Specialists Security Check					
 Security Administration Activities					
Application Requirements Rules					
 Application Controls					
Logging On Rules					
 Unique User ID and Password					
 Unsuccessful Logon Attempts					
 Single Sign On (Log On)					
 Disclosure of Incorrect Logon Information					
 Encrypted Logon Files					
 Logon Scripts					
 Third Party Logons					
 Giving Logon Information to the User					
 Limitation on Number of Daily Log Ons					
Warning Banner Rules					
 Display a Warning Banner					

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
 Warning Banner Keystroke Monitoring					
 Warning Banner Last Logon					
 Warning Banner Information Disclosure					
Logging Off Rules					
 Automatic Log Off if No Activity					
 Automatic Log Off at End of Day					
Identification/ User ID Rules					
 Unique User ID					
 Prohibit Group User IDs					
 Dormant User IDs					
 Internet User ID Expiration					
 Granting Multiple User IDs					
 Granting User IDs to Outsiders					
 Re-use of User IDs					
 Customer Privacy and User IDs					
 Distribution of User IDs					
 User ID Logs					
Authentication / Passwords Rules					
 Assign a Default Password					
 Minimum/ Maximum Password Length					
 Cyclical Previous Passwords					

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
 Password Allowable Characters					
 Passwords Lower and Upper Case					
 Reusing Passwords / History					
 Forced Expiration of Passwords					
 Unsuccessful Passwords Attempts					
 Proof Of Identify to Obtain a Password					
 Distributing Passwords to Users					
 Typing Passwords					
 Resetting Passwords					
 Dynamic Password Tokens					
 Seed for System Generated Passwords					
 Immediate Issue of System Generated Passwords					
 Storage of Passwords					
 Zeroization of Password Materials					
 Password Based Boot Protection					
 Sending Passwords through the Mail					
 Password Encryption					
 Use of Duress Passwords					
 Changing Vendor Default Passwords					
 Passwords of Key Role Holders					
 Review Digital Certificates					

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
 Unauthorized Access to Passwords					
Authorization (Privileges) Rules					
 Privileges Granted on a Need-to-Know Basis					
 Dual Access Controls					
 Privileges Granted by Groups					
 Users that Leave the Organization					
 Systems Privileges					
 Separation of Duties					
Sanctions Rules					
 Revoking Access					
Employment Status Change Rules					
 Setting Up a New User (New Hire)					
 Handling Terminations					
Network / Perimeter Security Rules					
 Configuring Networks					
 Managing the Network					
 Defending against Virus Attacks					
 Handling Hoax Virus Warnings					
 Installing Virus Scanning Software					
 Electronic Eavesdropping					
 Modem Pool					
 Scanning for Modems					

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
📖 Dividing Large Networks					
📖 Network Connections with other Organizations					
📖 State-owned Resources					
📖 Network Controls					
📖 Unattended Network Terminals					
📖 Sensitive Information Prohibited from Network Printer					
📖 Controlling Network Analyzers					
📖 Setting up Intranet Access					
📖 Setting up Extranet Access					
📖 Network Diagrams					
📖 Default Passwords on Network Hardware					
📖 Keeping Track of Modems					
📖 Network Audit					
📖 Perimeter Security					
📖 Accessing Network Vulnerability					
📖 Network Entry Controls					
📖 Monitoring Network Entry					
📖 Perimeter security 24/ 7					
📖 Implementing Perimeter Protection					
📖 Defending against Denial of Service Attack					
📖 Inventory of Connections to External Networks					

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
 Contact Numbers in Directories					
 Isolating Sensitive Systems from Network					
 Connecting Modems to Network Prohibited					
 Modem Pools					
 Highest Risk Elements on the Network					
Firewalls Rules					
 Firewalls Required for all Dial Up Connections					
 Firewalls Must Run on Dedicated Computers					
 Changing Firewall Configurations					
 Internet Connections Need Firewalls					
Remote User / Dial-in Rules					
 Unsuccessful Logon Attempts					
 Remote Systems Connecting to Production					
 Issuing Laptops/ Portable Computers					
 Controlling Remote Access					
 Dial Up access needs Protection					
 Using Modems/ ISDN, DSL Connections					
 Connecting Networks to Third Party Networks					
 Extended User Authentication Systems for Dial Up					

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
 Use of Cable Modems					
 Using Encryption Techniques					
 Answering Incoming Calls					
Virus Handling Rules					
 Virus Checking Programs on PCs and LAN Servers					
 Testing for Viruses on a Stand-alone Computer					
 Virus Checking at Firewalls, Servers, and Desktops					
 Two Virus Screening Software Packages					
 Floppy Virus Checking Decal					
 Integrity Checking Programs					
 Decrypting Before Checking for Virus					
 Write Protection and Virus					
E-mail Rules					
 E-mail Point of Entry					
 Central E-mail Systems/ Anti-Virus					
 Deleting and Destroying E-mail					
 Using E-mail as a Database					
 Recording and Retaining E-mail					
Internet Rules					
 Setting up Internet Access					
 Intrusion Detection Systems					

Rule	Description	Disposition: Keep (K); Delete (D); Modify (M)	Format: Full (F); Condensed (C)	Priority: Critical (1); Strongly suggested (2); Optional (3)	Parameter Value
 Public Servers on Internet					
 Internet Commerce Servers - Demilitarized Zone

Working Paper #4: Incident Reporting At-a-Glance Handout

Computer User Incident Response Quick Reference

Be Alert !

You can make a difference by being aware of your environment, noticing unusual activities, safeguarding vulnerabilities, and quickly reporting any incidents.

To Report...	Comments	
... an incident in process.		Call ...
... sensitive information that has been or is being disclosed, lost, or damaged.		Call ...
... a software/ system malfunction.	Do not attempt a recovery yourself.	<ol style="list-style-type: none"> 1. Note (if time) any error messages, unusual system behavior (how is it behaving differently than before?) 2. Stop using the computer. 3. Disconnect from any attached networks. 4. Call ...
... a virus.		<ol style="list-style-type: none"> 1. Shut down the involved computer. 2. Disconnect from all networks. 3. Call ...
... an offensive e-mail, call, etc.		Respond directly to the originator. If the originator does not promptly stop sending offensive messages, report it to ...
... suspicious behavior.		Call ...
... known systems security vulnerabilities, risks, alerts, and warnings.		Call ...
... equipment damage or loss.		Call ...
... a physical access violation.		Call ...

Your Incident Response Team

The most important thing to remember is to be PROMPT.

Working Paper #5: Awareness Program

Whom do you want to make aware of ISS?

Awareness Topics/ Curriculum	Audience	Campaign	Training	Materials Needed

Computer User Awareness Training: Sample Agenda

Topics	Duration (min.)	Supporting Visuals
Class Opening		Welcome Slide
Intros/Logistics/Class Overview	10	
Project Overview	10	
Management Support	10	
Subjects		
ISS Overview	30	Rule Guide Chapter 1
Incident Reporting	15	Incident Handout
Computer User Rules Overview	5	
Access Control Rules	10	Rule Guide Chapter 3
Network Security Rules	10	Rule Guide Chapter 4
Internet, E-mail Rules	15	Rule Guide Chapter 5
Workstation/Office Rules	5	Rule Guide Chapter 6
Physical/People Rules	5	Rule Guide Chapter 7
Copyright Rules	5	Rule Guide Chapter 8
Acceptable Use Rules	10	Rule Guide Chapter 9
Closing		Quiz
Summary Test	10	
Wrap Up/What's Expected	5	
Final Q&A	3	
Total Duration:	158 min. (2 hr, 38 min.)
